1. CHAIRMAN'S INTRODUCTION

Chairman's Introduction

The Yorkshire Dales Access Forum is one of 81 Local Access Forums (LAFs) in England and Wales. We are statutorily prescribed independent bodies, introduced by the Countryside and Rights of Way (CROW) Act 2000.

Our main function is to advise our appointing authority, the Yorkshire Dales National Park Authority, as to the improvement of public access to land in that area for the purposes of open-air recreation and the enjoyment of the area. In carrying out our functions we must also have regard to the needs of land management and the desirability of conserving the natural beauty of the area for which it is established, including the flora, fauna and geological and physiographical features of the area. In order to do this as equitably as possible the forum's members must be representative of both users of local rights of way or access land and owners and occupiers of access land or land encompassing local rights of way.

That's the theory, but I'm not sure that we have been as effective as we could be. We are a small team of volunteers who give our time and experience freely. Being volunteers 'staffing' a statutory body isn't easy. The time of every member is precious and limited, and we are not alone amongst Local Access Forums in regularly questioning our value to the bodies we advise. That questioning is healthy.

As a result of the questioning this year the forum has made some changes to the way that it functions and we have begun to make our contributions through a series of advisory groups set up by the National Park Authority. There are seven advisory groups dealing with access on foot, access to bridleways and restricted byways, access for All, access for air sports, access for water sports, access for rock sports, and access by recreational motor vehicles. We think that this revised structure will serve the authority better and will generate more focused advice.

The apparent lack of interest shown in the work of the forum by the general public remains a concern. All forum meetings are open to the public and by arrangement members of the public may ask questions and, where appropriate, the chairman will invite public participation. Meetings are well advertised in local papers and on the Yorkshire Dales National Park Authority's website.

As chairman I have appreciated the manner in which members have remained focused and have applied their various skills and knowledge, and appreciated the secretariat service and support provided by the National Park Authority for our work. Providing and applying advice remains a challenge for us all. This will be my last chairman's report in this series because I was invited to chair the forum of our adjacent national park's local access forum, the Lake District LAF, and am pleased to carry across the experiences I have had as two years in the chair of the Yorkshire Dales Access Forum.

2. THE YORKSHIRE DALES ACCESS FORUM

2.1 The Role of the Yorkshire Dales Access Forum

It is the function of Yorkshire Dales Access Forum, in respect to the Yorkshire Dales National Park, to **advise** -

- (a) Yorkshire Dales National Park Authority (as the appointing authority), and the local highway authority for any part of the area,
- (b) any bodies exercising functions under the Countryside and Rights of Way Act (CRoW Act) Part 1 in relation to land in that area,
- (c) such other bodies as may be prescribed.

as to **the improvement of public access to land for the purposes of open air recreation and the enjoyment of the area, and as to such other matters as may be prescribed**, (CRoW Act s94(4)).

In consequence of the above the Yorkshire Dales Access Forum may comment on any aspect of the management of local access undertaken.

For example:

- advise the National Park Authority on any long term restrictions or exclusions on access land in its area;
- advise the National Park Authority on how public access to land in its area should be managed so as to reduce the impact of access on agriculture, conservation or land management, or to reduce the risk to public safety;
- advise on the means by which information to the public on access land, including restrictions and opportunities should be provided;
- make representations to the Planning Inspectorate during the course of any appeal brought by a person with a legal interest in the land; and

Yorkshire Dales Access Forum may be requested to provide advice on:

- strategies or plans incorporating recreation and access which set rights of way and open access in a broad context, integrating provision for access, all forms of open air recreation to land and water, and transport, tourism, health and public information for example the Integrated Access Strategy for the Yorkshire Dales National Park, and the Cumbria Countryside Access Strategy;
- the extent to which fair provision is made for all current and potential users, and reflects the needs of local people and businesses; and the co-ordinated use of resources to provide and manage integrated recreation and access, and the dissemination of information to interested groups and the wider public.

Yorkshire Dales Access Forum is a statutory consultee on the Rights of Way Improvement Plans produced by Cumbria and North Yorkshire County Councils, and any proposals to make Traffic Regulation Orders under the National Park Authorities Traffic Orders (Procedure) (England) Regulations 2007.

3. WHO ARE THE FORUM?

3.1 Members and representation

The Forum has been constituted so that:

- It is a balanced group, as far as is practical, which avoids being dominated by single interests.
- It is representative of all interests, including; recreation use, land management, nature conservation, tourism, business, transport and access for all.

Many members have secondary interests as well as the primary interest for which they were appointed.
